

Beaulieu International Group announces global price increases for its Engineered Products

Wielsbeke, Belgium – November 19, 2018 – Beaulieu Engineered Products announces global price increases across its Fibres, Yarns and Technical Textiles divisions effective as of January 1st 2019, or as contract terms allow.

The move follows on-going significant increases in energy, raw material and delivery costs.

Sales representatives will contact customers individually over the coming weeks to discuss the impact of the price changes on their specific products.

Karena Cancilleri, Vice President of Beaulieu Engineered Products, comments: “Through the price increases, Beaulieu Engineered Products will be able to maintain the level of innovative and reliable support our customers expect. At the same time, our three divisions will continue to look at ways to improve their operations to limit the effect of any further internal cost increases on customers.”

Beaulieu International Group

Beaulieu International Group is a well-respected industrial group with headquarters in Belgium. It holds an important market position both in the production of raw materials and intermediate goods, and the supply of perfectly finished floorcoverings.

Beaulieu International Group is composed of three business units. ‘Flooring Solutions’, is a worldwide leader in wall-to-wall floorcoverings (carpet, needle felt, artificial grass, cushion vinyl, vinyl planks, laminate, parquet, wall panels and mats). A second business Unit, ‘Polymers’, produces polypropylene granules for numerous applications. The third business unit ‘Engineered Products’, houses the activities related to ‘Fibres’, ‘Yarns’, ‘Technical Textiles’ and ‘Technical Sheets’.

Another division of Beaulieu International Group is specialized in the development and production of quality upholstery fabrics for the sofa industry.

Beaulieu International Group has more than 5,000 employees in 27 plants, 16 representative offices and distribution centres spread across 16 countries. In 2017, the combined turnover was close to €2 billion.

The Beaulieu International Group's entrepreneurial spirit and innovative ambitions make it the model of diversity and evolution within the sector. They allow it to create added value sustainably for customers, employees, suppliers, shareholders and for the society in which it operates.

Beaulieu Fibres International

As largest European producer of PP fibres, our company is part of the Engineered Products Business Unit of Beaulieu International Group, with headquarters in Belgium.

With three production sites in Europe – two in Belgium and one in Italy, we supply PP and PE/PP BICO fibres with linear densities of 0.9 den to 450 den to customers in industries such as Automotive, Hygiene, Geotextiles, Flooring, Filtration and Upholstery. Our broad portfolio includes colored fibres, high elongation fibres, high tenacity fibres, ultrasoft fibres with different cross-sections, including trilobal, suitable for a wide range of processing technologies. Beaulieu Fibres International has 235 employees and reported a turnover of 188 million euros in 2017.

Beaulieu Yarns

Beaulieu Yarns is an independent entity within the Belgian family-owned business Beaulieu International Group and part of its Engineered Products Business Unit. It is a leading manufacturer of polyamide (PA) and polypropylene (PP) yarns for contract, automotive, residential and technical applications. Its products are supplied in the form of bulk continuous filament (BCF) and ennobled yarn (twist, heatset and fris ). Beaulieu Yarns distinguishes itself with an entrepreneurial yet simultaneously warm-hearted partnership approach, inspired by an open, SME culture, to create a wide range of high-quality yarns and related services that are often developed in close collaboration with customers and always with due respect to man and nature.

Beaulieu Yarns has two production sites in Europe – one in Belgium, one in France – and one production site in China.

Beaulieu Technical Textiles

Beaulieu Technical Textiles, member of the Beaulieu International Group, is an established leader and driving force in the global market of technical textiles. They combine a pioneering spirit with hands-on expertise. Its dedicated line-up of benchmark products is engineered to provide a tailored and high-tech response to present and future trends and demands. The result: a range of solutions that demonstrate exceptional quality and durability. Beaulieu Technical Textiles represents the cutting edge in the customer-oriented and market-specific production of polymer textiles. Its name has become a mark of excellence in the fields of carpet backings, agrotexiles, geotextiles, packaging and building textiles.
